

# Łukasiewicz - Institute of Microelectronics and Photonics

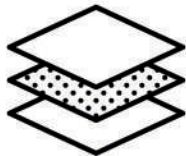

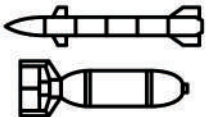

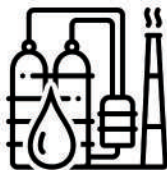

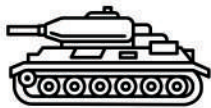

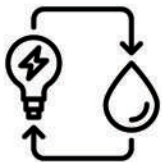

Łukasiewicz  
Institute of  
Microelectronics  
and Photonics

Materials and devices for  
modern technologies

**Our technologies provide solutions for innovative hi-tech products**

**Extensive portfolio of key photonic and microelectronic technologies**

- tailored-made optical fibers
- glasses and ceramics
- graphene composites and devices
- wide offer of structure analytical methods
- application-specific integrated circuits
- infrared photonic devices (lasers and detectors)
- photonic integrated circuits (PICs)
- silicon microtechnology
- photodiodes and detectors
- micromechanical sensors
- microfluidics
- GaN-based devices
- screening tests for personalized medicine
- porous materials for gas sensors
- supercapacitors
- diffraction optics
- LTCC structures
- hydrogen fuel cells
- printed flexible electronics
- testing and certification
- electromagnetic compatibility
- radio, noise, energy efficiency
